WISHBONE GOLD PLC ('Wishbone Gold' or 'the Company')
Wishbone Gold Plc presents at the UK Investor Show 2015

Wishbone Gold, an exploration and acquisition company focused on precious metals (gold and silver), will be presenting at the UK Investor Show at the Queen Elizabeth II Conference Centre in London on Saturday 18 April 2015.

Chairman and CEO Richard Poulden will provide an update on the company's Australian gold properties and give an overview of its exploration and expansion plans for 2015 in the Whittle Seminar Theatre D13 at 14:00.

Richard Poulden will participate in a debate on Resource Investments (Oil and Mining) chaired by Ben Turney alongside Kevin Foo, Matt Lofgran, Matt Suttcliffe, John McGloin, Amanda van Dyke, David Lenigas, Andrew Bell in the Churchill Auditorium on the Main Stage at 1220.

Arabian Money has tipped two gold shares for the coming upturn and one is Wishbone. Peter Cooper said of Wishbone Gold:

"The latter is the creation of a Dubai-based global investor Richard Poulden whose Sirius Minerals potash company saw its share price recover from near oblivion to be worth several hundred million. Will he be able to do it again with Wishbone Gold? I don't see why not. The gold concessions it owns in Queensland, Australia are excellent. An ex-investment banker, Oxford and Harvard graduate and barrister, Mr. Poulden is also a very skilled operator whose declared intention is to use Wishbone as an acquisition vehicle....."

If the gold price hits the roof Wishbone is a winner. Its oversold condition at the end of last year was a great buying opportunity, as I flagged up at the time. But there is still a ten-bagger or better here if I am right about gold."

The management will also be available to meet existing and prospective investors at the Company's exhibition stand, at booth location F33.
