Wishbone Gold PLC

Chairman's Statement

Dear Shareholders,

Unfortunately, during the preparation of these Accounts, the Chairman suffered a fall and sustained a serious back injury. It is most likely that the injury will require surgery and a period of recovery. Until that recovery is complete, I will be Acting Chairman, although I would point out that the Chairman will continue to remain actively involved in the Company's affairs.

During 2023, the Company continued the development and expansion of its exploration portfolio which began in 2020.

In January 2023, Wishbone completed the acquisition of tenement E45/6456 (Cottesloe East) covering 19 blocks (62km²) adjacent to its existing Cottesloe property in the Paterson Range, Western Australia. Combined these projects now form a total project area of 50 blocks covering 165km².

In March 2023, Southern Geoscience Consultants and Expert Geophysics identified two target areas following the completion of data analysis on the Red Setter Project.

In April 2023, Expert Geophysics confirmed its interpretation that Red Setter is an analogue of the nearby Telfer gold mine on which it has also reported. In April, Wishbone also reported that new analysis showed major resource potential over the whole of the enlarged Cottesloe project.

In May 2023, the Company released the results from enhanced processing of MobileMT across all Cottesloe properties. Also, Wishbone was granted a contribution of A\$220,000 for diamond drilling on the Cottesloe projects through the Exploration Incentive Scheme (EIS) program of the Government of Western Australia. The drilling recently completed at Cottesloe has provided further basis and preliminary holes to be completed by the diamond drill program later this year.

In November 2023, the Company announced it had secured an exclusive option to acquire 100% of the Crescent East Lithium and Gold Project, located in the prolific gold area of Mosquito Creek, in the Pilbara Region of Western Australia. The site is 260km south-east of Port Headland, the main point for the region's lithium exports.

In December 2023, the Company announced an update on the results of the year's exploration programme and updated modelling efforts at its Red Setter prospect located in the Paterson Range in Western Australia. The results confirmed a significant gold system with a mineralised strike over 3km, with this second stage of the drill programme expected to take place next year.

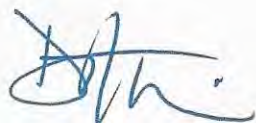

Post the year end, in March 2024, the Company announced that initial results from the diamond drill program at the Cottesloe Project has confirmed an overall exploration model for a major sediment hosted metals system focused on base metals and silver.

As a Board we are pleased with the progress we have made during the year in both advancing our existing projects, but also in continuing to add to our portfolio of exploration assets in the Paterson Range and Pilbara area of Western Australia, and we look forward to moving all our projects further down the "value chain" in the future.

In other areas, in November 2023, one of the Company's Non-Executive Directors, Professor Michael Mainelli, was elected as the 695th Lord Mayor of the City of London. During his year as Lord Mayor, Michael has taken a sabbatical from his position as a Director of the Company but we look forward to welcoming him back in 2024.

Sadly, in April this year, Alan Gravett, another of the Company's Non-Executive Directors passed away after a brief illness. Alan had been with Wishbone since it started in 2012 and he will be missed by everyone at the Company.

In closing, I would like to thank the Company's directors, employees and consultants for all their hard work during the year and also thank the shareholders for their support and patience. And we look forward to the year ahead with anticipation and excitement.

D.J. Hutchins, Acting Chairman
Date: 27 June 2024

Wishbone Gold PLC

Directors' Report

The Directors submit their report and the audited consolidated financial statements of Wishbone Gold Plc ("the Company") and its subsidiaries ("the Group") for the year ended 31 December 2023.

Activities, review of business and future developments

In 2023, we continued the expansion of our exploration portfolio which began in 2020.

In January 2023, Wishbone completed the acquisition of tenement E45/6456 (Cottesloe East) covering 19 blocks (62km²) adjacent to its existing Cottesloe property in the Paterson Range, Western Australia. Combined these projects now form a total project area of 50 blocks covering 165km².

In March 2023, Southern Geoscience Consultants and Expert Geophysics identified two target areas following the completion of data analysis on the Red Setter Project.

In April 2023, Expert Geophysics confirmed its interpretation that Red Setter is an analogue of the nearby Telfer gold mine on which it has also reported. In April, Wishbone also reported that new analysis showed major resource potential over the whole of the enlarged Cottesloe project.

In May 2023, the Company released the results from enhanced processing of MobileMT across all Cottesloe properties. Also, Wishbone was granted a contribution of A\$220,000 for diamond drilling on the Cottesloe projects through the Exploration Incentive Scheme (EIS) program of the Government of Western Australia. The drilling recently completed at Cottesloe has provided further basis and preliminary holes to be completed by the diamond drill program later this year.

The Directors' comments concerning the results and future developments are included in the Chairman's Statement.

The Group's business key performance indicators (KPIs) are cash, exploration costs, administrative costs, and shareholder reserves, all of which are disclosed in these consolidated accounts.

Results for the year and dividends

The Group's loss after taxation is £1,269,962 (2022: £1,140,210) after charging the following:

Group	2023 £	2022 £
Revenue	-	-
Gross profit	-	-
Administration costs	(1,270,896)	(1,116,947)
Exchange gain/(loss)	934	(23,263)
	<u>(1,269,962)</u>	<u>(1,140,210)</u>

The Company's loss after taxation is £1,206,491 (2022: £1,010,653) after charging the following:

Company	2023 £	2022 £
Revenue	-	-
Gross profit	-	-
Administration costs	(1,204,223)	(987,390)
Exchange loss	(2,268)	(23,263)
	<u>(1,206,491)</u>	<u>(1,010,653)</u>

The Directors do not recommend the payment of a dividend for the year ended 31 December 2023 (2022: £nil).

Wishbone Gold PLC

Directors' Report - continued

Directors

The Directors listed on page 3 have served on the board throughout the year ended 31 December 2023 and the year ended 31 December 2022. Non-Executive Director, Professor Michael Mainelli, has been elected as the 695th Lord Mayor of the City of London. He is taking a sabbatical from his position as a Director of the Company from November 2023. Non-executive Director, Alan Gravett, sadly passed away in April 2024.

Financial risk management

Details of the Group's financial instruments and its policies with regard to financial risk management are given in note 16 to the consolidated financial statements.

Principal risks and uncertainties

The principal risks and uncertainties facing the Group is whether potential mineral reserves can be exploited economically and further demand for precious metals will continue. Further information on this can be found in the Chairman's Statement.

Going concern

As disclosed in note 2, the Group has incurred losses during the financial years ended 31 December 2023 and 31 December 2022.

The Group fundamentally changed its strategy in June 2020 and re-focused on exploration in Australia. Initially, this was on the existing properties in Queensland but during the latter part of 2020, early 2021, and also late 2022, the Group took options over and acquired additional properties in Western Australia.

The presentation of this new strategy was received extremely well by the markets with the Company's market capitalization rising from £1.25m in June 2020 to over £30m by June 2021. This has enabled the Company to raise £1.842m in 2023 (2022: £2.375m).

The Directors have reviewed the financial condition of the Group since 31 December 2023 and have considered the Group's cash projections and funding plan for the 12 months from the date of approval of these financial statements. The Group's current cash situation without any additional funding can sustain the Company for at least the next twelve months. This can of course be adjusted in accordance with the results. All exploration is inherently unpredictable as to the final outcome.

The Company has also demonstrated that it has the ability to raise capital for its new strategy that it may require to accelerate the exploration programme if it desires.

The Board of Directors is confident that the Group has access to sufficient funds to enable the Group to meet its liabilities as and when they fall due for at least the next twelve months and also to continue full operations in exploration.

Exploration and evaluation

Exploration and evaluation costs capitalised as intangible assets amounted to £6,299,150 (2022: £4,900,173) at the year end. The Directors recognise that the realisation of intangible assets depends on the successful discovery and development of mineral reserves. The Directors have reviewed the proposed work programme for exploration and evaluation assets and on the basis of the results from the exploration programme and the prospects for raising additional funds as required, consider it appropriate to prepare the financial statements on a going concern basis.

Creditor payment policy

The Group does not follow a code or standard on payment practice. Payment terms are normally agreed with individual suppliers at the time of order placement and are honoured, provided that goods and services are supplied in accordance with the contractual conditions.

At 31 December 2023, the Group had creditor days of 25 days (2022: 25 days) based on the financial data for the year.

Corporate governance

The Directors have, in so far as practicable given the Group's size and the constitution of the board, complied with the main provisions of the Combined Code: Principles of Corporate Governance and Code of Best Practice which is consistent with the recommendations on Corporate Governance Guidelines of the Quoted Companies Alliance for AIM companies. The Company has adopted the QCA Corporate Governance Code (2018) since the year to 31 December 2018 on a comply or explain basis, with the appropriate disclosures as required by the AIM Rules for Companies.

The Directors have adopted terms of reference for an audit committee and remuneration committee. The Directors do not fully comply with the Corporate Governance Code to the extent that there is no nomination committee as the Board does not consider it appropriate to establish at this stage of the Group's development.

The Directors comply with Rule 21 of the AIM Rules relating to the Directors' dealings as applicable to AIM companies and will also take all reasonable steps to ensure compliance with Rule 21 by the Group's relevant employees.

The Company's Code of Corporate Governance is published on the Company's website:

<https://wishbonegold.com/company/corporate-governance/>

Events after the reporting year

The following events took place after the year end:

On 2 February 2024, the Company has raised £300,000 at a price of 1.2 pence per share and has issued a total of 25,000,000 new Ordinary Shares of 0.1 pence each.

On 15 March 2024, initial results from the diamond drill program at Cottesloe Project has confirmed overall exploration model for a major sediment hosted metals system focused on base metals and silver.

On 30 April 2024, Wishbone announced the passing of one of its Non-Executive Director, Alan Gravett.

On 24 May 2024, the Company has received a notice to exercise warrants over a total of 25,000,000 new ordinary shares of 0.1 pence each which was issued at 1.0 pence per share. The exercise consideration is £250,000.

Statement regarding disclosure of information to the auditors

Each director of the Company has confirmed that, in fulfilling their duties as a director, they are not aware of relevant audit information of which the Group's auditors are not aware and that they have taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the Group's auditors are aware of that information.

This information is given and should be interpreted in accordance with the provisions of Gibraltar Companies Act 2014.

Wishbone Gold PLC

Directors' Report - continued

Independent auditors

AMS Limited were appointed as auditors for the year.

A resolution for the reappointment of AMS Limited will be proposed at the Annual General Meeting.

The financial statements on pages 19 to 42 were approved by the Board of Directors and signed on its behalf by:

J C Harrison, Director

Date: 27 June 2024

Company's registered number: 103190

Wishbone Gold PLC

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and the Group as at the financial year end and of the profit or loss of the Group for that year. In preparing those financial statements, the directors are required to:

- a. select suitable accounting policies and then apply them consistently;*
- b. make judgements and estimates that are reasonable and prudent;*
- c. state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and*
- d. prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business.*

The directors are responsible for keeping proper accounting records, which disclose with reasonable accuracy at any time the financial position of the Group and to enable them to ensure that the financial statements comply with the requirements of the Companies Act 2014. Specifically, pursuant to section 248 of the Gibraltar Companies Act 2014, the directors have elected to follow United Kingdom adopted International Financial Reporting Standards. The directors are also responsible for safeguarding the assets of the Company and Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate financial statements included on the Company's website. Legislation in Gibraltar governing the preparation and dissemination of accounts may differ from legislation in other jurisdictions.

J C Harrison

Director

27 June 2024

Wishbone Gold PLC

Code of Corporate Governance

Wishbone Gold Plc (Wishbone or the Company) is registered in Gibraltar and, as such, complies with the Gibraltar Companies Act 2014. This Act does not provide for a specific corporate governance code and accordingly Wishbone has adopted the general principles of the QCA Corporate Governance Code (2018) (the “Corporate Governance Code”) on a comply or explain basis, to meet both the requirements of the Alternative Investment Market (AIM) and the Aquis Stock Exchange (AQSE). The Corporate Governance Code also applies to any subsidiaries or companies in which Wishbone has a majority voting interest, unless otherwise stated.

The Statement of the Corporate Governance Code is reviewed annually. Any amendments to the Statement of the Corporate Governance Code will be set out in future Annual Reports on the Company’s website.

Wishbone Corporate Code

1. Establish a strategy and business model which promotes long-term value for shareholders

Wishbone is a gold and precious metals exploration company with assets in Australia. The company has acquired four additional exploration properties in the Paterson Ranges area of Western Australia since 2020. These are in addition to the existing two properties in Queensland.

In June 2020 the Company revised its strategy to focus more resources on its exploration properties in Australia. The Company continues to review acquisition opportunities in all sectors.

2. Seeks to understand and meet shareholder needs and expectations

The Board encourages constructive feedback from its shareholders on their needs and expectations for the Company through question and answer sessions at its annual general meeting and at other online and in-person presentations by board members that the Company organise. The Company also maintains a Twitter and Facebook accounts to provide communications with shareholders. The Chairman and the Board have been mindful of the importance of communication with shareholders and have been successful by communicating via RNS, periodic media interviews and attendance at investor shows when possible.

3. Takes into account wider stakeholder and social responsibilities and their implications for longer term success

Wishbone takes social responsibility extremely seriously. The Chairman has been involved in conservation charities for many years and the Company is bringing enhanced levels of conservation and care for the environment into the operations with which it is involved.

The Board seeks to identify suppliers that provide the right balance of capabilities and cost and are identified purely on an arms-length commercial basis. The Company’s suppliers will be paid in line with agreed payment terms and the Board will act in an ethical manner in all dealings and expect the same from its suppliers.

The Board recognises that, as it develops, there will be wider stakeholder and social responsibilities that will have to be taken into account, in particular in relation to employees and the communities in which it becomes active. The Board seeks constructive feedback from all its stakeholders.

The Company has an open and compliant approach to its dealings with the regulators associated with the admission of the Company’s shares to trading on the AIM and AQSE.

4. Embed effective risk management, considering both opportunities and threats throughout the organisation

The Board is responsible for the systems of risk management and internal control, as well as reviewing their suitability and effectiveness.

The Board identifies and addresses all risks based on a considered assessment of the likelihood of a risk occurring and the magnitude of the risk to the Company were it to occur, from both a positive and negative perspective.

5. Maintain the Board as a well-functioning, balanced team led by the Chairman

The Board currently comprises an Executive Chairman and four non-executive directors. This is considered appropriate and proportional to the Group's present requirements.

The Board continually reviews Wishbone's blend and range of skills and experience and will make changes and additions if necessary.

The Executive Chairman assisted by the Senior Non-Executive Director (Jonathan Harrison) take a position of leadership on all matters of Corporate Governance. They are supported in this by the Company Secretary, who ensures that the Board (and any Board Committees) are provided with high quality information in a timely manner in order to facilitate a proper assessment of the matters requiring a decision or insight.

Jonathan Harrison and David Hutchins are considered by the Board to be independent Non-Executive Directors, notwithstanding that under their respective letters of appointment each may be paid in Ordinary Shares as an alternative to cash, at the election of the Company. This matter of independence will be re-visited by the Board on a periodic basis.

With the Company in its current state of development, the Board believes that a single executive director is appropriate, while the four non-executive directors provide a good balance of skills and experience. However, this Board does not comply with the Corporate Governance Code in all respects. Specifically, the office of Chairman and CEO are held by the same person. The Company is considering further executive appointments and the roles of Chairman and CEO may be split in the future as the Company grows.

The Board of Directors is scheduled to meet formally four times a year.

The Company has an Audit Committee. The members of the Audit Committee are Jonathan Harrison and David Hutchins. The Audit Committee is scheduled to meet as necessary to conclude the audit, and meet officially once a year, at which time all members attend.

The Company has a Remuneration Committee. The members of the Remuneration Committee are David Hutchins and Jonathan Harrison. The Remuneration Committee is scheduled to meet once a year.

The Company does not currently have a Nomination Committee, but the Board will consider whether one is needed as it develops.

6. Ensure that between them, the directors have the necessary up-to-date experience, skills and capabilities

The Board consists of seasoned and well-qualified individuals with a broad range of business and industry expertise. The Board keeps these matters under continual review.

As the Company develops new business strategies, these matters will need to be reviewed, as will the diversity and gender balance of the Board.

The Board of Directors consists of:

- Richard Poulden, Executive Chairman and CEO
- Jonathan Harrison, Senior Non-Executive Director
- Professor Michael Mainelli, Non-Executive Director (on sabbatical leave from November 2023)
- David Hutchins, Non-Executive Director

6. Ensure that between them, the directors have the necessary up-to-date experience, skills and capabilities – continued

Each board member is highly qualified in their respective fields. They keep their skills up to date through continuing professional development and contacts in their respective skill areas.

7. Evaluate Board performance based on clear and relevant objectives, seeking continuous improvement

As the Company formulates, approves and implements new business strategies, the Board develops performance and evaluation criteria specifically for each sector. Given the size and development stage of Wishbone this is carried out internally without the assistance of third parties.

The performance of the Board, its committees and individuals is evaluated by way of comparison to the board and committee processes of companies at a similar stage of development and the skill levels of their members.

The Company's approach to succession planning is to bring talented individuals into the group at an operating level with the objective of their graduating to Board level in due course.

8. Promote a corporate culture that is based on ethical values and behaviours

As set out in Principle 3 the Board maintains high standards of transparency and integrity in all its business conduct. If, and as, the Company takes on employees, it will develop further policies and working practices to be adopted by the Company and its employees. The Board will monitor these policies and working practices.

The Board ensures that ethical values and behaviours are recognised and respected through its entire operating structure as set out in Principle 3.

9. Maintain governance structures and processes that are fit for purpose and support good decision-making by the Board.

The Company holds regular Board meetings and the Board is responsible for formulating, reviewing and approving the Company's strategy, budgets and acquisitions. The Executive Chairman's Role is to develop the strategy of the Company in conjunction with the Board and to execute that strategy.

Currently there are two Board Committees, an Audit Committee and Remuneration Committee. Other Committees will be established if and when the business requires. Membership of these committees can be found in the statement regarding Principle 5.

The Board intends to evolve its approach to Corporate Governance alongside the development of its business.

10. Communicate how the Group is governed and is performing by maintaining a dialogue with shareholders and other relevant stakeholders

The Executive Chairman of Wishbone has overall responsibility for Corporate Governance. The principles of corporate governance are satisfied through the discharge of specific responsibilities for Leadership, Board Management Relationships, Board Committees, Board Meetings and any other duties, which the Board may request from time-to-time.

Dialogue is maintained through general meetings, regulatory releases and presentations at investor-oriented events.

The results of proposed resolutions at all general meetings of the Company are published via RNS.

Notices of all general meetings and annual report and accounts published by the Company for the last five years. You can view the Company Reports & Accounts and Shareholder Circulars.

**Independent auditors' report
to the shareholders of Wishbone Gold Plc**

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements ("financial statements") of **Wishbone Gold Plc** (the Company) and its subsidiaries ("the Group"), for the year ended 31 December 2023, which comprise the company and consolidated statement of financial position, the consolidated statement of comprehensive income, the company and consolidated statement of cash flows, the consolidated statement of changes in shareholders' equity, and notes to the company and consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements:

- give a true and fair view of the state of the Group's and Company's affairs as at 31 December 2023 and of the Group's loss and cashflows for the year then ended;
- have been properly prepared in accordance with the United Kingdom adopted International Financial Reporting Standards; and
- have been prepared in accordance with the Companies Act 2014.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty relating to going concern

The financial statements have been prepared on the assumption that the Group and Company will continue as a going concern. As discussed in note 2 to the financial statements, the Group and Company have incurred a net loss for the year and have accumulated losses from prior years.

The going concern ability of the Group and Company relies on a number of matters including the future success of the exploration programme in Wishbone Gold Pty Ltd and Wishbone Gold WA Pty Ltd, both located in Australia, as well as the ability to raise funds from equity financing. These circumstances and conditions raise doubts about the Group's and Company's ability to continue as a going concern. Management's plans are described in note 2 together with the disclosures in the Directors Report and Chairman's Statement.

The consolidated and Company financial statements do not include any further adjustments that might result from the outcome of this uncertainty.

Our opinion is not modified in respect of this matter.

**Independent auditors' report
to the shareholders of Wishbone Gold Plc**

Report on the Audit of the Consolidated Financial Statements (continued)

Our application of materiality

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements. Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall materiality for the financial statements as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements on the financial statements as a whole.

Overall group materiality	£143,000
How we determined it	2% of the total net assets of the Group.
Rationale for the materiality benchmark applied	We have applied the total net assets benchmark as, in our view, it is the key driver for the principal users of the financial statements. We also believe this will provide an appropriate and consistent year-on year basis for our audit

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter in the audit of the company	How our audit addressed the key audit matter
<p data-bbox="161 159 820 197"><u>Going Concern Assessment</u></p> <p data-bbox="161 232 820 331">As noted by the directors on note 2, the consolidated financial statements are prepared on a going concern basis.</p> <p data-bbox="161 367 820 546">In 2023, the Group has incurred net losses of £1,269,962. As at 31 December 2023, the Group has accumulated losses of £12,189,605, while the Group's cash balances amounted to £18,226 and current liabilities were £907,997.</p> <p data-bbox="161 582 820 680">The Group relies on the future success of exploration programme in its Australia-based subsidiaries, as well as its ability to raise funds from equity financing.</p> <p data-bbox="161 716 820 860">There is a risk that a material uncertainty could exist related to events or conditions that, individually or collectively, may cast significant doubt on the Group's ability to continue as a going concern.</p> <p data-bbox="161 896 820 1335">The Group closely monitors and manages its capital position and liquidity risk regularly throughout the year to ensure that it has sufficient funds to meet forecast cash requirements and satisfy the working capital requirements and planned exploration activities. Taking into account the ability of the Group to raise adequate funding to support its planned exploration program, the Board of Directors is confident that the Group has access to sufficient funds to enable the Group to meet its liabilities as and when they fall due for at least the next twelve months and also to continue full operations in exploration.</p>	<p data-bbox="820 232 1449 271">Our audit procedures covered:</p> <p data-bbox="820 306 1449 405">Discussion with management about his assessment of the company's ability to continue as a going concern and management's future plans.</p> <p data-bbox="820 441 1449 517">We considered management going concern assessment and assumptions.</p> <p data-bbox="820 553 1449 978">We identified that the most significant assumptions in assessing the Group's ability to continue as a going concern were the expected future forecasts from its exploration program and its ability to raise funding. The calculations supporting the assessment require management to make highly subjective judgements. The calculations are based on estimates of future events and are fundamental to assessing the suitability of the basis adopted for the preparation of the financial statements. We reviewed these assumptions and calculations;</p> <p data-bbox="820 1014 1449 1158">We checked that the Group has sufficient cash to fund its operational costs and able to raise capital where required, for the next 12 months after the date of signing the 2023 financial statements; and,</p> <p data-bbox="820 1193 1449 1292">We note that the directors' fees can be settled by shares as well as cash at the discretion of the Company.</p>

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Independent auditors' report to the shareholders of Wishbone Gold Plc

Report on the Audit of the Consolidated Financial Statements (continued)

Responsibilities of the directors for the financial statements

The directors are responsible for the preparation of financial statements that give a true and fair view in accordance with applicable law in Gibraltar and United Kingdom adopted International Financial Reporting Standards, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

**Independent auditors' report
to the shareholders of Wishbone Gold Plc**

Report on the Audit of the Consolidated Financial Statements (continued)

Auditor's Responsibilities for the Audit of the Financial Statements – continued

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Opinion on other matter prescribed by the Companies Act 2014

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Directors' Report has been prepared in accordance with the requirements of the Companies Act 2014.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Matters on which we are required to report by exception

We have nothing to report in respect of the matter where the Companies Act 2014 requires us to report to you if, in our opinion, we have not received all the information and explanations we require for our audit.

Use of our report

This report, including the opinion, has been prepared for and only for the company's members as a body in accordance with Section 257 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

1. General Information

The consolidated financial statements of Wishbone Gold Plc (the “Company”) and its subsidiaries (the “Group”) for the year ended 31 December 2023 were authorised for issue in accordance with a resolution of the Company’s directors on 28 June 2024.

The Company was incorporated in Gibraltar under the name of Wishbone Gold Plc as a public company under the Gibraltar Companies Act 2014. The authorised share capital of the Company is £8,000,000 divided into 8,000,000,000 shares of £0.001 each. The registered office is located at Unit 5A,3 Irish Place, Irish Town, GX11 1AA, Gibraltar.

Further share allotments have been made as disclosed in note 12.

2. Accounting Policies

Basis of preparation

The financial statements of the Group have been prepared in accordance with United Kingdom adopted International Financial Reporting Standards (“IFRS”) applied in accordance with the provisions of the Gibraltar Companies Act 2014 (“the Act”).

In accordance with the Gibraltar Companies Act 2014, the individual statement of financial position of the Company has been presented as part of these financial statements. The individual statement of comprehensive income has not been presented as part of these financial statements as permitted by Section 288 of the Act. The individual statement of comprehensive income of the Company shows a loss for the year of £1,206,491 (2022: £1,010,653).

IFRS is subject to amendment and interpretation by the International Accounting Standards Board (“IASB”) and the International Financial Reporting Interpretations Committee (“IFRIC”). The accounts have been prepared on the basis of the recognition and measurement principles of IFRS that are applicable for the year commencing 1 January 2022.

The consolidated financial statements have been prepared under the historical cost convention. The principal accounting policies set out in the succeeding pages have been consistently applied to all years presented other than changes from the new and amended standards and interpretations effective from 1 January 2023.

Going concern

The Group has incurred losses during the financial years ended 31 December 2023 and 31 December 2022.

In June 2020, the Group fundamentally changed its strategy and re-focused on exploration in Australia. Initially, this was on the existing properties in Queensland but during the latter part of 2020, early 2021, and also late 2022, the Group took options over and acquired additional properties in Western Australia.

The presentation of this new strategy was received extremely well by the markets with the Company’s market capitalization rising from £1.25m in June 2020 to over £30m by June 2021. This has enabled the Company to raise £1.842m in 2023 (2022: £2.375m).

The Directors have reviewed the financial condition of the Group since 31 December 2023 and have considered the Group’s cash projections and funding plan for the 12 months from the date of approval of these financial statements. The Group’s current cash situation without any additional funding can sustain the Company for at least the next twelve months. This can of course be adjusted in accordance with the results. All exploration is inherently unpredictable as to the final outcome.

The Company has also demonstrated that it has the ability to raise capital for its new strategy that it may require to accelerate the exploration program if it desires.

The Board of Directors is confident that the Group has access to sufficient funds to enable the Group to meet its liabilities as and when they fall due for at least the next twelve months and also to continue full operations in exploration.

2. Accounting Policies – continued

Basis of consolidation

The Group's consolidated financial statements incorporate the financial statements of the Company and its subsidiaries prepared at 31 December each year. Control is achieved where the company has power to govern the financial and operating policies of an investee entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with those used by the Group.

All intra-group transactions and balances and any unrealised gains and losses arising from intra-group transactions are eliminated in preparing the consolidated accounts.

In the parent company financial statements, the investment in the subsidiaries is accounted for at cost.

Functional and presentational currencies

The individual financial information of the entity is measured and presented in the currency of the primary economic environment in which the entity operates (its functional currency).

As at 1 January 2021, the functional currency of the Company is the Pounds Sterling ("£"). The Board of Directors considered that the Group's source of funding is predominantly £ denominated. As a result, the Directors have determined that £ is the currency which best reflects the underlying transactions, events and conditions relevant to the Group with effect from 1 January 2021 ("the effective date of the change").

In accordance with IAS 21 'The Effect of Changes in Foreign Exchange Rates', the effect of a change in functional currency is accounted for prospectively. All items were translated at the exchange rate on the effective date of the change. The resulting translated amounts for non-monetary items are treated as their historical cost. Share capital and premium were translated at the historic rates prevailing at the dates of the underlying transactions.

The effects of translating the Company's financial results and financial position into £ were recognized in the foreign currency translation reserve.

The financial statements are presented in £ including the comparative figures. All amounts are recorded in the nearest £, except when otherwise indicated.

Business combinations and goodwill

On acquisition, the assets and liabilities, and contingent liabilities of subsidiaries are measured at their fair values at the date of acquisition. Any excess of cost of acquisition over the fair value of identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair value of identifiable net assets acquired (i.e., discount on acquisition) is credited to the income statement in the period of acquisition. Goodwill arising on consolidation is recognised as an asset and reviewed for impairment at least annually. Any impairment is recognised immediately in the income statement and is not subsequently reversed.

2. Accounting Policies – continued

Exploration and evaluation assets

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made. Exploration and expenditure ceases after technical feasibility and commercial viability of extracting a mineral resource are demonstrable.

Property, plant and equipment

Property, plant and equipment is stated at cost less accumulated depreciation. Cost is depreciated on a straight-line basis over their expected useful lives as follows:

Machinery	15% per annum
-----------	---------------

Investments

Investments in group undertakings

Investments in group undertakings are measured at cost less any impairments arising should the fair value after disposal costs be lower than cost.

Impairment of non-financial assets

At each year end date, the Group reviews the carrying amounts of its non-financial assets, which comprise of investments, tangible and intangible assets, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less cost to sell, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset, for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash generating unit) is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash generating unit) in prior periods. A reversal of impairment loss is recognised in the income statement immediately.

In 2023, the Company did not recognise additional impairment of its related party loans (2022: £Nil).

2. Accounting Policies – continued

Foreign currencies

The consolidated financial statements are presented in Gibraltar Pounds Sterling (“£”), the presentation and functional currency of the Company. All values are rounded to the nearest £. Transactions denominated in a foreign currency are translated into £ at the rate of exchange at the date of the transaction or using the average rate for the financial year. At the year-end date, monetary assets and liabilities denominated in foreign currency are translated at the rate ruling at that date. All exchange differences are dealt with in the income statement.

On consolidation, the assets and liabilities of foreign operations which have a functional currency other than £ are translated into £ at foreign exchange rates ruling at the year-end date. The revenues and expenses of these subsidiary undertakings are translated at average rates applicable in the period. All resulting exchange differences are recognised as a separate component of equity. Foreign exchange gains or losses arising from a monetary item receivable from or payable to a foreign operation are recognised in the consolidated statement of comprehensive income and disclosed as a separate component of equity, such foreign exchange gains or losses are reclassified from equity to the income statement on disposal of the net foreign operation. The same foreign exchange gains or losses are recognised in the stand-alone income statements of either the parent or the foreign operation.

In the statement of cash flows, cash flows denominated in foreign currencies are translated into the presentation currency of the Group at the average exchange rate for the year or the prevailing rate at the time of the transaction where more appropriate.

The closing exchange rate applied at the year-end date was AUD 1.87 per £1 (2022: AUD 1.7758). The average exchange rate applied at the year-end date was AUD 1.87 per £1 (2022: AUD 1.7767).

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker as required by IFRS 8 "Operating Segments". The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors.

The accounting policies of the reportable segments are consistent with the accounting policies of the Group as a whole. Segment loss represents the loss incurred by each segment without allocation of foreign exchange gains or losses, investment income, interest payable and tax. This is the measure of loss that is reported to the Board of Directors for the purpose of the resource allocation and the assessment of the segment performance.

When assessing segment performance and considering the allocation of resources, the Board of Directors review information about segment assets and liabilities. For this purpose, all assets and liabilities are allocated to reportable segments (note 4).

2. Accounting Policies – continued

Revenue recognition

The Group earns its revenues only from gold trading, which is recognised at a point in time. Revenue is recognised when control of a good or service transfers to a customer. A new five-step approach is applied before revenue can be recognised:

identify contracts with customers;
identify the separate performance obligation;
determine the transaction price of the contract;
allocate the transaction price to each of the separate performance obligations; and
recognise the revenue as each performance obligation is satisfied.

The revenue recognition under IFRS 15 is similar to how the Company has previously accounted for its revenues under the old revenue accounting standards.

Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost less provision for impairment.

Impairment of financial assets

The Group has adopted the expected credit loss model (“ECL”) in IFRS 9. The ECL is to be measured through a loss allowance at an amount equal to:

- the 12-month expected credit losses (ECL that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- full lifetime expected credit losses (ECL that result from all possible default events over the life of the financial instrument).

The Group only holds cash and trade and other receivables with no financing component and therefore has adopted an approach similar to the simplified approach to ECLs.

Provision for impairment (or the ECL) is established based from full lifetime ECL and when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivable. The amount of the impairment is the difference between the asset's carrying amount and the present value of the estimated future cash flows, discounted at effective interest rate.

Cash and cash equivalents

Cash and cash equivalents comprise on demand deposits held with banks.

Trade and other payables

Trade payables are initially measured at fair value, and subsequently measured at amortised cost, using the effective interest rate method.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its liabilities. Equity instruments issued by a group entity are recorded at the proceeds received, net of any direct issue costs.

2. Accounting Policies – continued

Taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the year end date. Deferred taxation is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, if the deferred tax arises from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting, nor taxable profit or loss, it is not accounted for. Deferred tax is determined using tax rates and laws that have been enacted (or substantively enacted) by the year end date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Share based payments

The Company has historically issued warrants and share options in consideration for services. The fair value of the warrants have been treated as part of the cost of the service received and is charged to share premium with a corresponding increase in the share based payment reserve. All subscriber warrants issued in the prior years had already lapsed, thus the share based payment reserve was transferred to retained earnings. In 2021 and 2020, the Group issued warrants (see note 14) as part of the total consideration for the acquisition of exploration licenses (see note 9), for which the value attributable to the warrants is £Nil.

Standards, amendments and interpretations to existing standards that are effective in 2023

The following table lists the recent changes to Accounting Standards that are required to be applied for accounting periods beginning on or after 1 January 2023. None of these have had no significant impact on the consolidated financial statements:

	Effect annual periods beginning before or after
IFRS 17 Insurance Contracts	1st January 2023
Disclosure of Accounting Policies – Amendments to IAS 1 and IFRS Practice Statement 2	1st January 2023
Definition of Accounting Estimates – Amendments to IAS 8	1st January 2023
Deferred tax relating to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12	1st January 2023
International Tax Reform – Pillar Two Model Rules – Amendments to IAS 12	1st January 2023

New standards and interpretations to existing standards that are not yet effective or have not been early adopted

At the date of authorisation of these consolidated financial statements, the following standards and interpretations were in issue but not yet mandatorily effective and have not been applied in these financial statements:

	Effect annual periods beginning before or after
Classification of Liabilities as Current or Non-current - Amendments to IAS 1	1st January 2024
Non-current Liabilities with Covenants – Amendments to IAS 1	1st January 2024
Lease Liability in a Sale and Leaseback (Amendments to IFRS 16)	1st January 2024
Supplier Finance Arrangements - Amendments to IAS 7 and IFRS 7	1st January 2024
Lack of Exchangeability (Amendments to IAS 21)	1st January 2025

The Directors anticipate that the adoption of these Standards and Interpretations in future periods will have no material impact on the consolidated financial statements.

2. Accounting Policies – continued

The Company assessed that there is no significant impact of the adoption of the new or amended Accounting Standards and Interpretations on the Company's financial statements. The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

3. Critical accounting estimates and judgements

The critical accounting estimates and judgements made by the Group regarding the future or other key sources of estimation, uncertainty and judgement that may have a significant risk of giving rise to a material adjustment to the carrying values of assets and liabilities within the next financial year are:

Critical judgements in applying the group's accounting policies

Going concern

The preparation of the financial statements is based on the going concern assumption as disclosed in note 2. The Board of Directors, after taking into consideration the additional funding received, believe the going concern assumption is appropriate.

Determining capitalizable exploration and evaluation expenditures

The application of the Group's accounting policy for exploration and evaluation expenditure requires judgement to determine whether future economic benefits are likely from either future exploration or sale, or whether activities has not reached a stage that permits a reasonable assessment of the existence of reserves.

In addition to applying judgement to determine whether future economic benefits are likely to arise from the Group's exploration and evaluation assets, or whether activities have not reached a stage that permits a reasonable assessment of the existence of reserves, the Group has to apply a number of estimates and assumptions. The determination of Joint Ore Reserves Committee (JORC) resource is itself an estimation process that involves varying degree of uncertainty depending on how the resources are classified.

The estimation directly impacts when the Group defers exploration and evaluation expenditure. The deferral policy requirements management to make certain estimates and assumptions about future events and circumstances, particularly, whether an economically viable extraction operation can be established.

Any such estimates and assumptions may change as new information becomes available. If, after expenditure is capitalised, information becomes available suggesting that the recovery of expenditure is unlikely, the relevant capitalised amount is written off to the statement of profit or loss and other comprehensive income in the period when the new information becomes available.

Impairment of exploration and evaluation assets

Impairment of exploration and evaluation expenditure is subject to significant estimation, due to the complexity of the accounting requirements and the significant judgement required in determining the assumptions to be used to estimate the recoverable amount. As at 31 December 2023, the Board of Directors are satisfied that no impairment exists as outlined in note 9.

If, after expenditure is capitalised, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalised is written off in profit and loss in the period when the new information becomes available. As at 31 December 2023, no such information is available to suggest that the expenditure is not recoverable.

3. Critical accounting estimates and judgements – continued

Determination of functional currency

As at 1 January 2021, the functional currency of the Company is the Pounds Sterling (“£”). The Board of Directors considered that the Group’s source of funding is predominantly £ denominated. As a result, the Directors have determined that £ is the currency which best reflects the underlying transactions, events and conditions relevant to the Group with effect from 1 January 2021 (“the effective date of the change”).

Parent company statement of financial position - impairment of the investment in a subsidiary and related party receivables

The Company’s investments in its subsidiaries are carried at cost less provision for impairment. The values of the investments are inherently linked to the assets held by and or the performance of the subsidiaries and an impairment review is undertaken by management annually to assess whether any permanent diminution in value has occurred.

At the reporting date, the Australian subsidiaries had net liability of £530,993 (AUD 992,956) (2022: £507,407 (AUD 901,266)). As noted above, the Board of Directors do not consider that the exploration and evaluation assets are impaired. No facts or circumstances were noted that the projects are not viable. Accordingly, no impairment of the investment in and loan to the Australian subsidiaries of £104,105 (2022: 104,105) and £ 6,411,909 (2022: £5,273,575), respectively, were recognised.

Valuation of warrants

As described in note 14, the fair value of any warrants granted was calculated using the Binomial Option Pricing model which requires the input of highly subjective assumptions, including volatility of the share price. Changes in subjective input assumptions may materially affect the fair value estimate.

4. Segmental analysis

Management has determined the operating segments by considering the business from both a geographic and product perspective. For management purposes, the Group is currently organised into a single operating division, resource evaluation (Australia). The division is the business segment for which the Group reports its segment information internally to the Board of Directors.

5. Administrative expenses

	2023 £	2022 £
Fees payable to the Company’s auditor for the audit of the consolidated financial statements	48,640	38,700
Other administrative costs	924,340	778,247
Remuneration of directors of the Group	297,916	300,000
	1,270,896	1,116,947

Remuneration to the directors of the Group may be settled via the issue of equity in the Company and cash, as disclosed in note 19.

**Notes to the Consolidated Financial Statements
for the year ended 31 December 2023**

6. Taxation

The Company is subject to corporation tax in Gibraltar on any profits, which are accrued in or derived from Gibraltar or any passive income which is taxable. The corporation tax rate in Gibraltar for the year ended 31 December 2022 is 12.5%. There was an increase in the corporate tax in Gibraltar to 12.5% effective from 1 August 2021; the rate prior to the effectivity of the new rate was 10%. The Company has no operations in Gibraltar which are taxable.

The Company has taxable losses to carry forward, consequently no provision for corporate tax has been made in these financial statements.

The Group's subsidiary, Wishbone Gold Pty Ltd, is subject to corporate income tax in Australia. The corporate income tax rate in Australia for the year ended 31 December 2023 is 25% (2022: 25%).

This subsidiary has taxable losses to carry forward, consequently no provision for corporate tax has been made in these financial statements.

Note that there are no group taxation provisions under the tax laws of Gibraltar.

As at 31 December 2023 and as at 31 December 2022, the Company has no deferred tax assets and no deferred tax liabilities.

7. Loss per share

	2023	2022
	£	£
Loss for the purpose of basic loss per share being net loss attributable to equity owners of parent	(1,269,962)	(1,140,210)
Loss for the purpose of diluted earnings per share	(1,269,962)	(1,140,210)
Number of shares:		
Weighted average number of new ordinary shares		
Issued ordinary shares at the beginning of the year	181,343,651	173,795,213
Effect of share issues after reorganisation	78,827,440	7,548,438
Weighted average number of new ordinary shares at 31 December	260,171,091	181,343,651
Basic loss per share (pence)	(0.488)	(0.629)

Due to the Company and the Group being loss making, the share warrants (note 14) are antidilutive.

8. Trade and other receivables

<i>Group</i>	2023	2022
	£	£
Other receivable	775,276	122,278

<i>Group</i>	Exploration & evaluation assets
<u>Cost</u>	£
At 1 January 2022	1,460,055
Additions	3,377,051
Foreign exchange revaluation	63,067
At 31 December 2022	<u>4,900,173</u>
At 1 January 2023	4,900,173
Additions	1,644,710
Foreign exchange revaluation	(245,733)
At 31 December 2023	<u><u>6,299,150</u></u>

The Group holds Exploration Permits for Mining ("EPMs") to four tenements in Queensland, Australia and seven exploration licenses in Western Australia. The renewal of the EPMs is for a maximum further period of 5 years. Permits are not automatically renewed but require an application to the Queensland Department of Natural Resources and Mines.

In 2023, Group acquired additional exploration license in Western Australia for a total deemed consideration of £425,000 (2022: £370,192) which consists of cash amounting to £nil (2022: £50,000), shares of stocks with deemed value of £425,000 (2021: £320,193) and share warrants valued at nil (see notes 12 and 14).

The total additions in 2023 is composed of the following:

	£
Western Australia Crescent East / Mosquito Creek Acquisition	425,000
Western Australia exploration costs	1,192,105
Queensland exploration costs	27,605
Total additions	<u><u>1,644,710</u></u>

Settlement of liability through shares (see note 10)	-	-	-	-	-	-
Exercise of warrants issued last year with shares issued this year	-	-	-	-	-	-
As at 31 December	<u>277,740,308</u>	<u>3,095,161</u>	<u>16,132,579</u>	<u>198,912,868</u>	<u>3,016,333</u>	<u>14,368,967</u>

Share allotments and issuances during the year, including comparative, are laid out below:

On 11 March 2022, the Company issued 238,095 warrants at an exercise price of 10.5 pence per share.

On 6 September 2022, the Company issued 22,946,860 new ordinary shares of 0.1 pence each at a price of 10.35 pence per share which equates to £2,375,000, following the expansion of the Red Setter and Halo projects. The Company has also issued 13,047,101 warrants at an exercise price of 20 pence per share.

On 18 November 2022, the Company issued 2,170,795 new ordinary shares of 0.1 pence each at a price of 14.75 pence per share which equates to £320,193 following the completion of the Anketell Project acquisition.

On 1 August 2023, the Company issued 59,059,997 new ordinary shares of 0.1 pence each at a price of 2.4 pence per share which equates to £1,417,440.

On 22 November 2023, the Company issued 1,162,790 new ordinary shares of 0.1 pence each (the “Ordinary Shares”) at a price of 2.15 pence per share equating to £25,000 to pay for the Option Fee of the Crescent East Lithium and Gold Project.

On 19 December 2023, the Company issued 18,604,652 new ordinary shares of 0.1 pence each (the “Ordinary Shares”) at a price of 2.15 pence per share equating to £400,000 to complete the acquisition of the Crescent East Lithium and Gold Project.

Ordinary shares carry a right to receive notice of, attend, or vote at any Annual General and Extraordinary General Meetings of the company. The holders are entitled to receive dividends declared and paid by the Company.

**Notes to the Consolidated Financial Statements
for the year ended 31 December 2023**

13. Investment loans

As at 31 December 2023, there are no outstanding loans due from third parties.

<i>Company</i>	2023 £	2022 £
<u>Non-Current</u>		
Amounts owed by subsidiary undertakings (note 19)	6,411,909	5,273,575
	<u>6,411,909</u>	<u>5,273,575</u>

14. Share based payments

Details of the warrants and share options in issue during the year ended 31 December are as follows:

	Number of Warrants / options 2023 No	Average exercise price 2023 £	Number of Warrants / options 2022 No	Average exercise price 2022 £
Outstanding at 1 January	20,385,196	0.1871	8,951,851	0.1040
Lapsed/terminated during the year	(5,600,000)	0.1936	(1,851,851)	0.1400
Issued during the year	75,000,000	0.0150	13,285,196	0.1941
Exercised during the year	-	-	-	-
Outstanding at 31 December	<u>89,785,196</u>	<u>0.0410</u>	<u>20,385,196</u>	<u>0.1871</u>

The outstanding warrants and share options break down are as follows: 25,000,000 warrants with exercise price of £0.01 per share valid up to November 2025; 25,000,000 warrants with exercise price of £0.015 per share valid up to November 2025; 25,000,000 warrants with exercise price of £0.02 per share valid up to November 2027; 1,000,000 warrants with exercise price of £0.10 per share valid up to September 2024; 1,500,000 warrants with exercise price of £0.10 per share valid up to February 2026; 573,671 warrants with exercise price of £0.104 per share valid up to September 2024; 238,095 warrants with exercise price of £0.105 per share valid up to March 2024; and 11,473,430 warrants with exercise price of £0.20 per share valid up to September 2024.

Fair value is measured by use of the Binomial Option Pricing Model with the assumption of 5% future market volatility and a future interest rate of 1.63% (2022: 1.63%) per annum based on the current economic climate. The fair value of share warrants granted in 2023 was £nil (2022: £nil). The fair value of share warrants outstanding as at 31 December 2023 is £72,987 (2022: £72,987).

15. Financial instruments

The Group's financial instruments comprise of cash and cash equivalents, borrowings and items such as trade payables which arise directly from its operations. The main purpose of these financial instruments is to provide finance for the Group's operations.

Classification of financial instruments

All Group's financial assets are classified at amortised cost. All of the Group's financial liabilities classified as other financial liabilities are also held at amortised cost. The carrying value of all financial instruments approximates to their fair value.

Fair values of financial instruments

In the opinion of the directors, the book values of financial assets and liabilities represent their fair values.

16. Financial risk management

The Group's operations expose it to a variety of financial risks including credit risk, liquidity risk, interest rate risk and foreign currency exchange rate risk. The Directors do not believe the Group is exposed to any material equity price risk. The policies are set by the Board of Directors.

Credit risk

Credit risk is the risk that a counterparty will be unable or unwilling to meet the commitments that it has entered into with the Group. Credit risk arises from cash and cash equivalents, and trade and other receivables (including the Company's receivables from related parties). As for the cash and cash equivalents, these are deposited at reputable financial institutions, therefore management do not consider the credit risk to be significant.

The carrying amount of financial assets represents the maximum credit exposure. The maximum credit exposure to credit risk at the reporting date was £855,401 (2022: £1,662,200).

Based on this information, the directors believe that there is a low credit risk arising from these financial assets.

Interest rate risk

The Group's interest-bearing assets comprise only cash and cash equivalents and earn interest at a variable rate. The Group has a policy of maintaining debt at fixed rates which are agreed at the time of acquiring debt to ensure certainty of future interest cash flows. The directors will revisit the appropriateness of the policy should the Group's operations change in size or nature.

No sensitivity analysis for interest rate risk has been presented as any changes in the rates of interest applied to cash balances would have no significant effect on either profit or loss or equity.

The Group has not entered into any derivative transactions during the year under review.

Liquidity risk

The Group actively maintains cash balances that are designed to ensure that sufficient funds are available for operations and planned expansions. The Group monitors its levels of working capital to ensure that it can meet its debt repayments as they fall due. All of the Group's financial liabilities are measured at amortised cost. Details of the Group's funding requirements are set out in note 18.

Non-derivative financial liabilities, comprising loans payable, trade payables and accruals of £924,426 (2022: £632,674) are repayable within 1-12 months from the year end, apart from directors' fees. The amounts represent the contractual undiscounted cash flows, balances due equal their carrying balances as the impact of discounting is not significant.

Foreign currency exchange rate risk

The Group undertakes certain transactions in foreign currencies. Hence, exposure to exchange rate fluctuations arises.

The Group incurs foreign currency risk on transactions denominated in currencies other than its functional currency. The principal currency that gives rise to this risk at Group level is the Australian Dollar. At the year end, the Group's exposure to the currency is minimal; accordingly, any increase or decrease in the exchange rates relative to the functional currency would not have a significant effect on the financial statements.

Notes to the Consolidated Financial Statements
for the year ended 31 December 2023

17. Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern, to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. The Group defines capital as being share capital plus reserves. The Board of Directors monitor the level of capital as compared to the Group's commitments and adjusts the level of capital as is determined to be necessary, by issuing new shares. The Group is not subject to any externally imposed capital requirements. There were no changes in the Group's approach to capital management during the year.

18. Commitments

Annual expenditure commitments

In order to maintain current rights of tenure to exploration tenements, the Group is required to perform minimum exploration work to meet the minimum expenditure requirements specified by various authorities.

These obligations are subject to periodic renegotiations and authorities allow overspend from previous years to be applied. The Group's planned spend through its exploration contractors are as follows:

	2023 £	2022 £
Within one year	347,434	460,297
After one year but not more than five years	483,328	754,394
	<u>830,762</u>	<u>1,214,691</u>

19. Related parties

The Company wholly owns Wishbone Gold Pty Ltd, an Australian entity that is engaged in the exploration of gold in Australia. The Company's investment in Wishbone Pty Ltd was £104,500 as at 31 December 2023 and 2022. The financial and operating results of this subsidiary have been consolidated in these financial statements.

Wishbone Gold Pty Ltd, as at 31 December 2023, has a loan outstanding from Wishbone Gold Plc of the following amounts:

	2023 £	2022 £
Outstanding at 1 January	4,021,181	1,541,554
Additions during the year	713,333	2,479,627
Outstanding at 31 December	<u>4,734,514</u>	<u>4,021,181</u>

Wishbone Gold WA Pty Ltd, as at 31 December 2023, has a loan outstanding from Wishbone Gold Plc of the following amounts:

	2023 £	2024 £
Outstanding at 1 January	1,252,394	857,202
Additions during the year	425,000	395,192
Outstanding at 31 December	<u>1,677,394</u>	<u>1,252,394</u>

The intercompany loans are repayable on demand and do not attract any interest.

Wishbone Gold PLC

Notes to the Consolidated Financial Statements for the year ended 31 December 2023

19. Related parties - continued

The following summarises the fees incurred in respect of directors' and officers' services for the year ended 31 December 2023 and 2022, and the amounts settled by the Company by way of share issues and cash.

20. Ultimate controlling party

The directors believe that there is no single ultimate controlling party.

21. Events after the reporting date

The following events took place after the year end:

On 2 February 2024, the Company has raised £300,000 at a price of 1.2 pence per share and has issued a total of 25,000,000 new Ordinary Shares of 0.1 pence each.

On 15 March 2024, initial results from the diamond drill program at Cottesloe Project has confirmed overall exploration model for a major sediment hosted metals system focused on base metals and silver.

On 30 April 2024, Wishbone announced the passing of one of its Non-Executive director, Alan Gravett.

On 24 May 2024, the Company has received a notice to exercise warrants over a total of 25,000,000 new ordinary shares of 0.1 pence each which was issued at 1.0 pence per share. The exercise consideration is £250,000.

22. Availability of accounts

The full report and accounts are being posted on the Company's website, www.wishbonegold.com.

23. Contingent liability

There is some risk that native title, as established by the High Court of Australia's decision in the Mabo case, exists over some of the land over which Wishbone Gold Pty and Wishbone Gold WA hold tenements or over land required for access purposes. Wishbone has historically had good relationships with Indigenous Australians and the board will do their utmost to continue this.

Nonetheless we have to state that the Group is unable to determine the prospects for success or otherwise of the future claims and, in any event, whether or not and to what extent the future claims may significantly affect Wishbone Gold or its projects.

There are no contingent liabilities outstanding at 31 December 2023 and 31 December 2022.
