**Wishbone Gold Plc  
("Wishbone" or the "Company")  
London AIM & Aquis: WSBN**

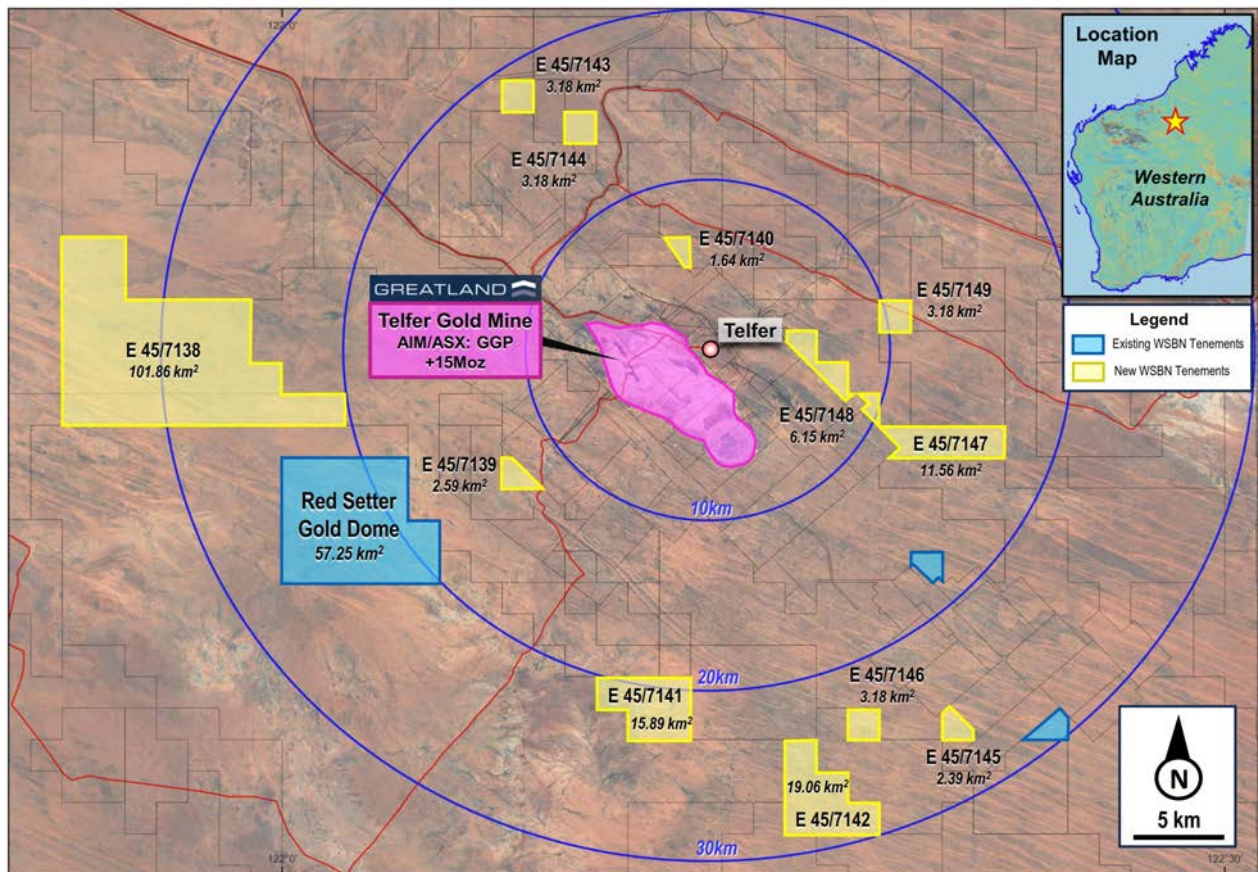

**Drilling Operations Commence at Red Setter Gold Dome Project Western Australia**

Wishbone Gold Plc is pleased to announce that the contract drillers have successfully mobilised to the Company's Red Setter Gold Dome Project, located about 15km SW of Greatland Gold Plc's (AIM and ASX: GGP) operating Telfer gold mine in Western Australia. **(Refer to Figure 2 for location)**

Ed Mead, Wishbone Gold WA director, commented; " Access routes have now been opened, and the drillers have mobilised to site and established the necessary site works to drill. As of yesterday, the rig was over the first of two drill holes that are to be deepened from around 300m depth down to around 550m target depth and had successfully run casing to near the bottom of the first hole. We expect further drilling towards the new target depths in the days ahead. "

**Figure 1: Drillers on site at Red Setter preparing to deepen previous drilled RC hole to target depth of 550m.**

### **Competent Persons Statement**

The Information in this report that relates to exploration results, mineral resources or ore reserves is based on information compiled by Mr Edward Mead, who is a Fellow of the Australasian Institute of Mining and Metallurgy. Mr Mead is a director of Wishbone Gold WA Pty Ltd and is a consultant to Wishbone Gold Plc and employed by Doraleda Pty Ltd. Mr Mead has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the 'Australian Code for Reporting Exploration Results, Mineral Resources and Ore Reserves' (the JORC Code). Mr Mead consents to the inclusion of this information in the form and context in which it appears in this report.
